Picture Release Form

_____ Here at Play & Discover ELC we document children's learning and use that documentation in a variety of ways. We will display it to highlight the learning that the children do when they are here with us, we post them for the children to revisit learning experiences they have had, we use it to reflect on our teaching practices and we use it to offer further learning experiences for the children. At times we post these materials in other areas of the building as well as within the centre.

_____ As a leader in the field of Early Childhood Education we do a lot of work with the Ministry of Education and at times they request pictures of the centre and the children doing various things to use in various Power Points and workshops that they hold throughout the province.

_____ We often have students from other Saskatchewan Polytechnic programs (such as Early Childhood Education, Nursing, Dental, etc.) work with us for various practical experiences or for full practicum placements. During their time here with us they often are required to take pictures of the children to be used in presentations or assignments for classes.

_____ Play & Discover ELC has social media account that we use as a space to share the learning experiences the children participate in when they are here, highlight our unique program and the work our educators do, promote the centre, and advocate for the rights of children and families.

By initialing the sections above you are granting us permission to use your child's picture in the ways stated. If you are not comfortable with us using your child's photo in one or more of the ways outlined we ask that you do not initial that section.

I, _____ have read the Picture Release Form above and understand that by initialing each section I am granting permission to Play & Discover ELC to publish photos my child, _____ in the ways outlined.
